## **Dear students,**

After three years of intense preclinical education, you will be starting to study clinical branches and take your first steps in the hospital as “young doctors”. First, we would like to congratulate you and wish you success in all your clerkships.

In this year, you will not only take dense theoretical education but also you will experience your first practical medical training. You will be expected to acquire all the skills and experience necessary for practicing general medicine by your trainers.

Term IV at the School of Medicine takes place at Acibadem Mehmet Ali Aydınlar University Kerem Aydınlar Campus, at the affiliated hospitals (Atakent and Maslak) and other health institutions. The theoretical education program is concordant with the primary health-care program, called as “UÇEP” (Ulusal Çekirdek Eğitim Programı). Accordingly, Term IV students may be assigned to a different primary, secondary or tertiary health-care institutions with suggestions from the Curriculum Development Committee, Program Coordinators, and upon approval from the Faculty Board and Dean. Such an assignment occurs as the education program is prepared considering the Term IV training based on the work principals of the department. These assignments may take place at in-patient and outpatient clinics, operating rooms, laboratories, primary care facilities and in community.

During this term, your clerkships will be in the Department of Internal Medicine (10 weeks), Cardiovascular Medicine (4 weeks), Pediatrics (10 weeks), General Surgery (8 weeks) and Obstetrics and Gynecology (6 weeks). You will have 2 weeks of Midyear Recess during this academic year, which will be in different time periods according to your group. This year Pediatrics Clerkship has been almost completely changed to a more interactive education form structurally, theoretically and practically. We suggest you keep this Guide Book with you, which contains all necessary information you will need during the Clerkships. The supervising faculty member in all stages will also provide further information.

In Acıbadem Mehmet Ali Aydınlar University School of Medicine, our aim is to educate doctors of tomorrow as individuals who practice evidence-based medicine, acknowledge the importance of research, who are inquisitive, honest and work for the well-being of humanity. Being a doctor does not require only theoretical knowledge; it also requires self-respect, high quality doctor-patient relationships and hands-on experience. On this term, you will be expected to obtain all these qualifications by observing your faculty members while improving your medical knowledge and communication skills.

Please do not forget that the appearance and behavior of yours should be appropriate for the honorable doctor profession in all stages. You should always consider the patient confidentiality, while respect and punctuality must be your main priority during your clerkships.

Term IV is an influential and hard year to grow up, study, learn and gain experience but you will feel “like a doctor”. We wish you all a successful year.

----------------------------	--

### Clerkship Aims

This course aims to provide basic and necessary knowledge about the etiology, pathogenesis, clinical symptoms and signs, differential diagnosis and treatment of neurological diseases and preventive measures.

Students will be able to perform neurological examination, interpret laboratory results, and discuss the radiological findings. Additionally, they will learn what their responsibilities are and acquire the necessary attitudes and behaviors about 'patients' rights and privacy.

### Clerkship Outcomes

By the end of this clerkship, the students will be able to:

1. Describe anatomic localization of neurological lesion
2. Define etiological causes of neurological lesion
3. Perform neurological examination in awake and comatose patients
4. Differentiate the structural and systemic causes of consciousness disorders according to the neurological examination findings.
5. Describe symptoms and physical findings of common neurological disorders, define screening protocols of them and refer these patients to appropriate centers.
6. Define neurological emergencies and learn how to do their management in primary center
7. Diagnose stroke, identify causes of cerebrovascular diseases, take care of acute stroke in emergency room, define cerebrovascular diseases emergencies and be able to refer appropriate patients to specialized tertiary centers
8. Diagnose headache, identify causes of headache, discriminate secondary headache causes from primary ones, define red flags in headache, learn how to do management of primary headache attacks in primary center
9. Diagnose convulsion, define type of epileptic seizure, identify causes of convulsion, learn how to do management of epileptic seizure and status epilepticus in emergency room
10. Describe symptoms and physical findings of peripheral nerve disorders, define screening protocols of them and refer these patients to appropriate centers
11. Describe symptoms and physical findings of muscle disorders, define screening protocols of them and refer these patients to appropriate centers

12. Describe symptoms and physical findings of extrapyramidal system disorders, define screening protocols of them and refer these patients to appropriate centers
13. Describe symptoms and physical findings of peripheral nerve disorders, define screening protocols of them and refer these patients to appropriate centers
14. Describe symptoms and physical findings of demyelinating disorders, define screening protocols of them and refer these patients to appropriate centers
15. Describe symptoms and physical findings of dementia, define screening protocols of them and refer these patients to appropriate centers
16. Diagnose CNS infection and refer these patients to appropriate centers

### Assessment Methods

- Structured Oral Exam (Contributes to 60% of final points)
- Case-Based Learning Assessment (Contributes to 30% of final points)
- Neurological Examination Assessment (Contributes to 10% of final points)

Failure to sign in will be interpreted as absence;  $\geq 20\%$  absence requires repeating the course

# NEUROSURGERY

<b>Clerkship Name</b>	<b>Neurosurgery</b>	<b>MED 502</b>
-----------------------	---------------------	----------------

<b>Clerkship Type</b>	<b>Compulsory</b>
<b>Medium of Instruction</b>	<b>English</b>
<b>Year / Duration</b>	<b>Year V / 3 weeks</b>

<b>Theoretical Hours</b>	<b>60</b>	<b>Credit</b> <b>5</b>	<b>ECTS</b> <b>5</b>
<b>Practical Hours</b>	<b>57</b>		
<b>Study Hours</b>	<b>30</b>		
<b>TOTAL (Student Workload)</b>	<b>147</b>		

**Clerkship Chair**

**Koray ÖZDUMAN**  
M.D., Prof. Neurosurgery  
koray.ozduman@acibadem.edu.tr

**Mustafa GÜDÜK**  
M.D., Assist. Prof. Neurosurgery  
mustafa.guduk@acibadem.edu.tr

**Faculty**

**M. Memet ÖZEK**  
M.D., Prof. Neurosurgery  
**M. Zafer BERKMAN**  
M.D., Prof. Neurosurgery  
**Koray ÖZDUMAN**  
M.D., Prof. Neurosurgery

**Baran BOZKURT**  
M.D., Assoc. Prof. Neurosurgery  
**Bahattin TANRIKULU**  
M.D., Assoc. Prof. Neurosurgery

**Mustafa GÜDÜK**  
M.D., Assist. Prof. Neurosurgery  
**M.İmre USSELI**  
M.D., Instructor Neurosurgery

<b>Educational Methods</b>	Described below in detail
----------------------------	---------------------------

### Clerkship Aims

To train medical students to become proficient in diagnosing and treating neurosurgical emergencies. The students shall also learn the general outline of neurosurgical pathologies, the diagnostic workup, differential diagnosis and treatment options.

### Clerkship Outcomes

By the end of this clerkship, the students will be able to:

Students must learn:

1. History and physical on Neurosurgical patients
2. Neurological examination.
3. Basic neuroradiological examinations and diagnosis of neurosurgical emergencies.
4. Diagnosis and initial treatment/protection for neurosurgical emergencies and craniospinal trauma.
5. Students shall learn the general outline:
6. Diagnostic procedures in neurosurgical disease.
7. Common neurosurgical problems, their workup, differential diagnosis, treatment and outcome.

### Assessment Methods

- Week 1: Practical clinics and lectures at Altunizade Hospital
- Week 2: Practical clinics and lectures at Maslak Hospital
- Week 3: Practical clinics and lectures at Altunizade Hospital
- Mortality and Morbidity conference is held at Acibadem Altunizade Hospital every Saturday 08:00-09:00 and is compulsory.
- The midterm exam is in the form of an oral presentation.
- Form:
- The presentation shall be prepared in the format of a scientific congress presentation.
- The presentation is prepared as an electronic power-point presentation.
- The duration is 10 minutes.
- Presentation language is English.
- Slide reading is discouraged
- Content:
- Presentation titles are assigned on the 1st day of the clerkship
- The student is responsible of the content
- Clinical case examples are encouraged
- Presentation of novel literature is encouraged
- Timing:
- Presentation is done on Monday and Tuesday on the 3rd week: Midterm exam
- A maximum of 20 points will be given based on content, proficiency, presentation, manner, language and fluidity.
- Thursday on 3rd week is Study day (1 day). Students are not obligated to attend the clinic on the day.
- Friday on 3rd week is exam-day. On the exam day all students will participate in the final written examination and the final oral examination.
- Final written examination will be in the form of a multiple-choice examination. The student is responsible for all clerkship content. 30 points will be given for 30 questions. Examination starts at 07:00. The duration is 60 minutes.
- Final oral committee examination starts at 08:30. The student is responsible for all clerkship content. 50 points will be given for at least 5 questions.

**\*Haluk ÖZKARAKAŞ**

M.D., Prof.

Otolaryngology - Head And  
Neck Surgery

<b>Educational Methods</b>	Theoretical lectures, Practice in outpatient clinics and operating theatre
----------------------------	---

### Clerkship Aims

This course aims to provide necessary knowledge about the etiology, pathogenesis, clinical symptoms and signs, differential diagnosis and treatment of otorhinolaryngological diseases

### Clerkship Outcomes

By the end of this clerkship, the students will be able to:

1. Be familiar to head and neck anatomy
2. Perform basic otorhinolaryngological examination
3. Describe the symptoms and physical findings of common otorhinolaryngological diseases
4. Diagnose and treat the common upper airway infections and ear infections
5. Recognize and define the upper airway emergencies
6. Recognize the hearing loss and facial paralysis
7. Define maxillofacial traumas
8. Recognize and describe the symptoms and physical findings of common head and neck cancers
9. Differentiate benign and malignant otorhinolaryngological diseases

<b>Assessment Methods</b>	Written examination (60 %) Oral examination (40 %)

**A. Rıza Cenk ÇELEBİ**  
M.D., Assoc. Prof. Ophthalmology

<b>Educational Methods</b>	Theoretical lectures Interactive learning sessions CASE Practice in the examination room, operating room & laser room
----------------------------	--

### Clerkship Aims

This clerkship aims to provide knowledge about the anatomy of the eye, etiology, pathogenesis, clinical symptoms and signs, differential diagnosis and treatment of ophthalmic diseases, eye tests and preventive measures.

### Clerkship Outcomes

By the end of this clerkship, the students will be able to:

1. Define anatomic structures of the eye and their functions
2. Perform basic biomicroscopy and fundus examination
3. Describe refractive errors and their treatment
4. Diagnose eye lid disorders and nasolacrimal duct obstruction, summarize their treatment options and treat particular cases
5. Make differential diagnosis of pink eye, and treat allergic and bacterial conjunctivitis
6. Describe symptoms and signs of cataracts and summarize treatment options
7. Describe symptoms and signs of glaucoma and summarize treatment options
8. Describe symptoms and signs of ocular/orbital tumors and uveitis, and summarize their treatment options
9. Describe symptoms and signs of retinal diseases, and summarize treatment options Diagnose strabismus and summarize treatment options
10. Describe common neuro-ophthalmological pathologies and summarize their treatment options
11. Diagnose penetrating eye trauma, define management of eye trauma
12. Diagnose and perform the first line treatment of chemical injuries of the eye
13. Perform visual field examination by confrontation
14. List and define all advanced eye tests, and comment on particular eye tests
15. Differentiate which patients are to be referred to tertiary centers for eye diseases

<b>Assessment Methods</b>	Clinical performance assessment (20%) Written examination (50%) Structured oral examinations (30%)

# DERMATOLOGY

Clerkship Name	Dermatology	MED 506
----------------	-------------	---------

Clerkship Type	Compulsory
Medium of Instruction	English
Year / Duration	Year V / 3 weeks

Theoretical Hours	59	Credit 5	ECTS 5
Practical Hours	56		
Study Hours	13		
TOTAL (Student Workload)	128		

#### Clerkship Chair

**Dilek BIYIK ÖZKAYA**  
M.D., Prof.  
Dermatology  
dilek.ozkaya@acibadem.edu.tr

**Deniz DEMİRCİOĞLU**  
M.D., Assist. Prof.  
Dermatology  
deniz.demircioglu@acibadem.edu.tr

#### Faculty

<b>Sedef ŞAHİN</b> M.D., Prof. Dermatology	<b>Gamze ERFAN</b> M.D., Prof. Dermatology	<b>Deniz DEMİRCİOĞLU</b> M.D., Assist. Prof. Dermatology
<b>*Emel ÖZTÜRK DURMAZ</b> M.D., Prof. Dermatology	<b>Dilek BIYIK ÖZKAYA</b> M.D., Assoc. Prof. Dermatology	<b>Andaç SALMAN</b> M.D., Assoc. Prof. Dermatology
<b>*Gonca SARAÇ ÖZTÜRK</b> M.D., Instructor	<b>Özgür TİMURKAYNAK</b> M.D., Assoc. Prof. Dermatology	<b>Ceyda ÇAYTEMEL</b> M.D., Assist. Prof. Dermatology

\*Visiting Professor

<b>Educational Methods</b>	<p>Lectures          Interactive learning session.          Practice in outpatient clinics.</p>
----------------------------	---

**Clerkship Aims**

This course aims to provide necessary knowledge about the etiology, pathogenesis, clinical symptoms and signs, differential diagnosis and treatment of dermatological diseases and preventive measures. Students will be able to interpret laboratory results, findings of dermatological examinations and perform several interventions. Additionally, they will learn what their responsibilities are and acquire the necessary attitudes and behaviors about 'patients' rights and privacy.

**Clerkship Outcomes**

By the end of this clerkship, the students will be able to:

1. Use the language of dermatology to effectively and accurately describe skin conditions and lesions.
2. Define common dermatological terms and primary/secondary skin lesions and recognize configuration of common skin lesions such as annular, dermatomal, linear etc.
3. To have focused history for dermatological conditions, demonstrate physical and dermatological examinations, and oral presentations suitable for the skin.
4. Outline a basic approach to the diagnosis and management of common skin conditions such as atopic dermatitis, psoriasis, and seborrheic dermatitis.
5. To differentiate and approach bacterial, viral, fungal and parasitic infections.
6. Apply the basic principles and practice of oral and topical dermatologic therapy including the appropriate use of emollients, topical steroids, antipruritic therapies, and systemic immunosuppressants
7. Correctly identify common skin tumors such as basal cell carcinoma, squamous cell carcinoma, and melanoma; outline basic management plans including the method of biopsy, appropriate surgical management, and patient follow up intervals.
8. Recognize potentially life-threatening skin diseases such as serious drug eruptions, toxic epidermal necrolysis, and autoimmune blistering disorders.
9. Successfully demonstrate essential dermatologic diagnostic procedures including KOH examination, scabies prep, and observe shave biopsy, and punch biopsy of the skin

<b>Assessment Methods</b>	<p>Failure to sign in will be interpreted as absence; <math>\geq 20\%</math> absence requires repeating the course,          General course assessment (Absence/attendance and active cooperation during course, Clinical assessment (Descriptions and discussion of relevant cases. Contributes to 20 % of final points.)          Structured oral exam (contributes to 80 % of final points)</p>

----------------------------	---

### Clerkship Aims

This course aims to provide necessary knowledge about the etiology, pathogenesis, clinical symptoms and signs, differential diagnosis, treatment, rehabilitation and physical therapy modalities and preventive measures of musculoskeletal system diseases and trauma.

### Clerkship Outcomes

By the end of this clerkship, the students will be able to:

#### **Orthopedics and Traumatology**

1. Perform basic musculoskeletal system examination and define common abnormalities
2. Diagnose common musculoskeletal system diseases
3. Identify traumatic injuries
4. Choose imaging techniques to diagnose musculoskeletal system disorders and assess x-rays
5. Obtain basic principles of differential diagnosis in musculoskeletal system disorders by processing the clinical, laboratory, radiological findings
6. List common complications of fractures and dislocations and basic management principles
7. Perform basic splinting and bandaging techniques, manage to transfer trauma patients in optimal conditions
8. Perform basic hip and extremity examination of a newborn
9. Describe common sports injuries and summarize their treatment options
10. Describe symptoms and physical findings of common musculoskeletal cancers, define screening protocol and refer these patients to appropriate centers
11. Define diagnostic criteria of musculoskeletal system infections, explain the principles of their management
12. Students are recommended to contact the responsible attending for each location at the Department of Orthopaedics and Traumatology, respectively

#### **Physical Medicine and Rehabilitation**

1. Learn definition, classification and measurement of pain; get familiar with principles of
2. Treatment of pain and WHO pain ladder, write a prescription for analgesics.
3. Be able to list differential diagnosis of neck and low back pain and able to examine a patient encountered with such complaints.
4. Define the most common etiologies of pain for upper and lower extremity joints (shoulder, elbow, wrist, hip, knee, ankle and joints of the hand and feet) and treatment principles.
5. Able to make the differential diagnosis for degenerative and inflammatory disorders.
6. Able to make a diagnosis of osteoarthritis and inform the patient about treatment and prognosis.
7. Develop a general sense of rehabilitation concepts and how rehabilitation can be applied to
8. Different patient populations (pediatrics, geriatrics, pulmonary and cardiovascular problems, etc.).
9. Get familiar with orthotics and prosthetics and learn the rationale of use for such devices.
10. Define osteoporosis and list the major groups of medication used for the treatment.
11. Able to show anatomic landmarks of musculoskeletal anatomy
12. Define common inflammatory disorders of musculoskeletal system, get familiar with criteria for inflammatory disorders.

## Assessment Methods

Oral Exam	(60 points)
Mini – CEX	(5 points)
CBL	(15 points)
CASE	(20 points)
<b>TOTAL: 100 points</b>	

- Individuals with >20% absence in lectures, skill trainings and practices will fail and must repeat this course.
- Minimum point to complete the clerkship successfully is 60.

The background is a light beige color with a pattern of faint, white medical icons including hearts, DNA helices, and stethoscopes. Overlaid on this are several white geometric shapes: a large irregular polygon on the left, a horizontal line at the top, a horizontal line below it, and a large circle at the bottom left. The text 'FORENSIC MEDICINE' is centered in the middle of the page.

### Clerkship Aims

This course aims to provide knowledge about the forensic medical procedure, autopsy, death, wounds, child abuse, domestic violence, physicians' legal responsibilities, medical malpractice.

### Clerkship Outcomes

By the end of this clerkship, the students will be able to:

1. Identify problems dealing with forensic medicine and resolve that problems using with correctly applied different concepts.
2. Define forensic medicine and how forensic medicine works,
3. Describe differences between forensic science and forensic medicine
4. Diagnose forensic cases, perform forensic medical procedure,
5. Perform a proper forensic report
6. Define autopsy procedure and autopsy types,
7. Describe what does death mean, types of death, early and late evidences of the death, organ transplantation procedure
8. Describe forensic psychiatric principles
9. Describe what does domestic violence mean, types of domestic violence, the results of domestic violence
10. Describe what does violence against women mean, types of violence against women, the results of violence against women
11. Describe what does child abuse mean, types of child abuse, the results of child abuse
12. Define medical malpractice and to list types of medical malpractice
13. Analyze the relationship between forensic cases and penal codes
14. Describe classification of wounds, diagnose different types of wounds
15. Define what does asphyxia mean, types of asphyxia, evidences of asphyxia and to make differential diagnosis different types of asphyxia

<b>Educational Methods</b>	Lectures Interactive learning session. Practice in outpatient clinics.
----------------------------	--

### Clerkship Aims

This course aims to provide necessary knowledge about the etiology, pathogenesis, clinical symptoms and signs, differential diagnosis and treatment of male and female urogenital diseases and preventive measures. Students will be able to interpret laboratory results, findings of radiological examinations and perform several interventions. Additionally, they will learn what their responsibilities are and acquire the necessary attitudes and behaviors about 'patients' rights and privacy.

### Clerkship Outcomes

By the end of this clerkship, the students will be able to:

- Diagnose renal colic and define treatment options
- Make differential diagnosis of hematuria
- Define urinary retention and obstruction
- Diagnose urinary stone disease and define basic treatment options
- List symptoms of common urological cancers and diagnose these conditions
- Diagnose common urological emergencies and explain their principle management
- Diagnose erectile dysfunction
- Diagnose enuresis nocturna and summarize basic treatment options
- Obtain basic principles of pediatric urology
- Diagnose and treat patients with sexually transmitted diseases
- Describe the role of PSA in urological screening
- Diagnose and treat urinary infection
- Perform digital rectal examination
- Perform examination of the testicles
- Perform urethral catheterization

<b>Assessment Methods</b>	Failure to sign in will be interpreted as absence; $\geq 20$ % absence requires repeating the course, General course assessment (Absence/attendance and active cooperation during course. Contributes to 30 % of final points.) Structured written exam (contributes to 70 % of final points)

Bu rehber, Acıbadem Üniversitesi Tıp Fakültesi ders programı kapsamında 5. ve 6. sınıflarda gerçekleştirilen seçmeli stajların kuralları, sürecin işleyişi ve sonuçların teslimi ile ilgili bilgi vermek amacı ile hazırlanmıştır.

### **İçerik:**

1. Bölüm: Yönetmelik maddeleri
2. Bölüm: 5. sınıf seçmeli stajların uygulama esasları
3. Bölüm: 6. sınıf seçmeli stajların uygulama esasları
4. Bölüm: Kurum dışı staj (seçmeli-zorunlu)  
başvurularında yapılacak yazışmaların silsilesi

### **Ekler:**

“Assessment Form for Elective Clerkships”

Acıbadem University School of Medicine

Acıbadem Üniversitesi Tıp Fakültesi Seçmeli Staj Öğrenci

Değerlendirme Formu

## Birinci Bölüm:

### YÖNETMELİK MADDELERİ

**43. Madde:** Klinik Stajların Kurum Dışında Yapılması aşağıdaki gibidir:

**a) Seçmeli Stajlar:** Seçmeli stajlarını kurum dışında yapmak isteyen öğrenciler başvurularını Fakülte Dekanlığına yaparlar. Başvurular Fakülte Yönetim Kurulu'nda değerlendirilir.

**a) Zorunlu Stajlar:** Zorunlu stajını yurt içinde veya yurt dışında yapmak isteyen öğrenciler başvurularını dilekçelerine kabul yazısı ve staj içerik bilgisi de ekleyerek Fakülte Dekanlığına yaparlar. Uyum Komisyonu tarafından değerlendirilen başvurular Fakülte Yönetim Kurulunda görüşülerek karara bağlanır.

## İkinci Bölüm:

### 5. SINIF SEÇMELİ STAJLARIN UYGULAMA ESASLARI

5. sınıfta her staj grubunda biri 4, biri 6 haftalık olmak üzere (toplam 10 hafta) iki adet seçmeli staj mevcuttur.

#### 5. sınıf seçmeli stajları:

- Yeni eğitim yılı başlamadan 15 gün önce web sayfasında ilan edilir.
- Stajlar 15 gün süre ile ilanda kalır.
- İlan sonrası belirlenen tarih aralığında öğrenciler seçmek istedikleri stajı Proliz programı üzerinde öğrenci giriş ekranından ders kaydı şeklinde gerçekleştirirler. Öğrencilere seçim yapmaları konusunda yardımcı bir kılavuz verilecektir.
- Kayıtlar ilk başvuru sırasına göre dolar. Tüm öğrenciler, yurtdışı stajı için kabul almış olsalar ya da yurtdışı staja gitmeyi planlıyor olsalar dahi bu dönemde her iki seçmeli ders için de seçim yapmak zorundadırlar.

- Öğrenci seçmeli stajını kurum dışında (yurt içi- yurt dışı, devlet hastanesi, üniversite hastanesi) yapmak istediği takdirde, bunu belirten dilekçe ve ekinde yapacağı kurum ve/veya bölümden kabul yazısı ile Dekanlığa ilgili seçmeli staj tarihinden en az bir ay önce başvurur.
- Eğitim yılı başında seçmeli staj ile başlayacak öğrenciler için başvuru stajları başlamadan 3 gün öncesine kadar yapılabilir.
- Öğrenci kurum dışı yapacağı staj için “seçmeli staj başvuru süresinde” işlemlerini tamamlamış olmalıdır.
- Seçmeli stajını kurum dışında yapacak olan öğrencinin kurum içi stajı kayıttan düşer.
- Kurum dışı staj başvurusu kabul edilmeyen öğrenciler öğretim yılı başında seçtikleri staja devam ederler.
- Seçmeli stajlarda kurum içi aynı staj iki kez tekrar edilemez. Her öğrenci kurum içinde iki farklı staj yapmış olmakla yükümlüdür.
- Kurum dışında yapılacak stajlarda, program uyumsuzlukları nedeni ile staj süresi birleştirilerek yapılabilir. Bu durumda öğrencinin getireceği not, gittiği her seçmeli staj için ayrı ayrı kabul edilir. Öğrenci bu durumu dilekçe ile Tıp Fakültesi Dekanlığı'na bildirmek zorundadır.
- Bir önceki sınıftan staj tekrarı yapanlar, sistemden seçmeli stajlarını seçerler ve programa devam hakkı aldıkları andan itibaren seçmelilerini yapabilirler.
- Gerek kurum içi gerekse kurum dışı seçmeli stajların bitiminde öğrenciler staj yaptıkları sorumlu hocadan kapalı zarf içinde alacakları evrakları staj son gününden sonraki bir hafta içinde Tıp Fakültesi Dekanlığına imza karşılığı teslim etmekle yükümlüdürler.

## Üçüncü Bölüm:

### 6. SINIF SEÇMELİ STAJLARIN UYGULAMA ESASLARI

6. sınıfta iki adet 4'er haftalık (toplam 8 hafta) seçmeli staj mevcuttur.

- 6. Sınıftaki seçmeli stajlar ilgili sadece klinik anabilim dallarında yapılır.
- Bu stajlar ve kontenjanları aralık ayı başında web sayfasında ilan edilir.
- Seçmeli stajların listesi 15 gün süre ile ilanda kalır.
- Bu süre zarfında öğrenciler seçmek istedikleri stajı Proliz programı üzerinde öğrenci giriş ekranından ders kaydı şeklinde gerçekleştirirler.
- Kayıtlar ilk başvuru sırasına göre dolar. Tüm öğrenciler bu dönemde seçim yapmak zorundadırlar.
- Öğrenci seçmeli stajını kurum dışında (yurt içi-yurt dışı, devlet hastanesi, üniversite hastanesi) yapmak istediği takdirde, bunu belirten dilekçe ve ekinde yapacağı kurum ve/veya bölümden kabul yazısı ile Dekanlığa seçmeli stajların başlama tarihinden en geç iki ay önce başvurur.
- Seçmeli stajını kurum dışında yapacak olan öğrencinin başvurusu kabul edildiği takdirde, daha önceden seçtiği kurum içi staj iptal edilir.
- Kurum dışı staj başvurusu kabul edilmeyen öğrenci daha önce seçtiği staja devam eder.
- Gerek kurum içi gerekse kurum dışı seçmeli stajların bitiminde öğrenciler staj yaptıkları sorumlu hocadan kapalı zarf içinde alacakları evrakları staj son gününden sonraki bir hafta içinde Dekanlığa imza karşılığı teslim etmekle yükümlüdürler.

## Dördüncü Bölüm:

### Seçmeli Staj Başvurularında Yapılacak Yazışmaların Silsilesi

Seçmeli ve veya zorunlu stajlarını kurum dışında yapılması ile ilgili olarak aşağıdaki silsile uygulanmaktadır;

**1.** Öğrenci dilekçesinde hangi staj, nerede planlanıyor bilgisi (Dekanlığa verilecek)

#### 1.a. Zorunlu stajlar için

√ Karşı kurumdan kabul yazısı ve yapılacak stajın içeriğini bildiren dilekçe ve ekleri dekanlığa öğrenci tarafından verilir. (Öncesinde karşı kurumun talebi halinde Dekanlıktan üniversitemizdeki stajın içerik bilgisini içeren bir yazı öğrenciye verilebilir).

√ Uyum komisyonu tarafından stajın süre, içerik ve sınama yöntemi ile ilgili eşdeğerliliğini gösteren rapor hazırlanır.

√ Fakülte yönetim kurulu öğrenci dilekçesi, ekleri ve uyum komisyon kararını değerlendirerek stajın kurum dışında yapılmasını kabul veya ret eder.

#### 1.b. Seçmeli stajlar için

√ Öğrenci karşı kurumdan resmi kabul belgesini dekanlığa dilekçe ekinde ilgili başvuru süresi içinde teslim eder.

√ Fakülte yönetim kurulu öğrenci dilekçesi ve eklerini değerlendirerek seçmeli stajın kurum dışında yapılmasını kabul veya ret eder.

**2.** Fakülte Yönetim Kurulu uygunluk kararı alınır.

**2.a.** Fakülte yönetim kurulu kararı öğrenci işlerine bildirilerek, sisteme kaydedilir.

**2.b.** Uygundur kararı staj formu ile birlikte kapalı zarfta karşı kurum dekanlığına/ilgili birimine resmi yazı ile yollanır.

**Kapalı zarf içeriği:** Fakülte kurulu onay yazısı; karşı kuruma bilgilendirme yazısı (staj programımız amaçları, ilgili stajın içeriği); staj değerlendirme formu

**3.** Staj bitiminde staj değerlendirme formu resmi yazı ekinde, kapalı zarf ile Dekanlığa gönderilir. Bu aşamada kurum içi ve/veya kurum dışı stajlarda aksaklıkların yaşanmaması için öğrenciler bu evrakın takibi ve tesliminden sorumludurlar.
